## ABOUT

This VET course aims to provide students with the foundation knowledge and the elementary skills required to work in the building and associated trades. The course is undertaken in the College Trade Training Centre, replicating an industry workplace environment.

This course is nationally recognised and is based on the Training Package (CPC11).

The qualification is recognised as an entry-level qualification for employment in the construction industry and provides opportunities to: -

- Apply knowledge and understanding of WHS and building site management
- Expand knowledge of the building sector and appreciate sustainable work practices
- Use a range of standard carpentry and construction materials and tools
- Develop practical skills in basic carpentry, formwork and framing
- Prepare sites for construction and following standard clean up procedures
- Read and interpret plans, follow building specifications and accurately apply measurements and calculations

## JOB ROLES

Possible job roles include: carpenter, builders, as well as an introduction to other trades such as bricklayers, tilers, painters, floor finishers and plumbers

## PERSONAL REQUIREMENTS

- Enjoy practical and manual activities
- Able to follow written instructions
- Able to work to a high level of accuracy
- Able to make mathematical calculations
- Good communication skills
- Good hand-eye coordination
- Able to work independently or as part of a team
- Free from allergies to dust.
